

From ice cone wrappers and paper for lamination to pouches and tea bag envelopes. Discover our portfolio of flexible packaging solutions. Uncoated and produced from 100% virgin fibre. We also deliver paper optimised for waterbased inkjet.

The future of flexible packaging is here

More and more brand owners are discovering the benefits of using paper over plastic for flexible packaging. Paper is suitable for both analogue and digital print, sustainable, thin, strong, and food-safe. Our portfolio offers a wide range of solutions, either with a matt finish or a natural shine through soft calendering. We also have many options for applications where paper is laminated with aluminium or other materials.

Crown Van Gelder is looking for partners to push the boundaries of what is possible with paper. With a hands-on and practical mindset, we are exploring new ground to find exciting opportunities. Think digital print, barrier coatings, and alternative fibres to further reduce the environmental impact of packaging. So get in touch and let's talk!

○ = On request

Crown Flexform

Versatile, strong paper for flexible packaging. Also suitable for lamination and extrusion.

Special features	Strong, light basepaper
CIE Whiteness	139

Basisweight g/m ²	Caliper (µm)	Bekk Smoothness Topside s	Tensile MD/CD (kg/15 mm)	
50	67	55	6.5 / 3.4	●
60	78	50	7.7 / 3.9	●

Crown Letsgo Nero XF

Paper for flexible packaging. Developed for water-based inkjet print.

Special features	Specialized for waterbased inkjet, both pigment and Dye inks
CIE Whiteness	114

Basisweight g/m ²	Caliper (µm)	Bekk Smoothness Topside s	Tensile MD/CD (kg/15 mm)	
50	56	170	6.5 / 3.0	●

CIE Whiteness	ISO 11475
Basisweight	ISO 536
Caliper	ISO 534
Bekk Smoothness Topside	ISO 5627
Tensile MD/CD	ISO 1924-3

Sustainability and digital developments are changing paper dynamics

The move towards a sustainable and digital society greatly impacts the role of paper in different market segments. To successfully market products, paper processors continuously need to overcome specific technical challenges.

Technical know-how to unlock paper potential

Accurately specified papers are only the starting point of a successful new product. Ensuring that the paper reaches its full potential on processing equipment truly adds value. Delivering the technical expertise needed to make this happen, is what sets Crown Van Gelder apart.

Thriving on making our paper deliver

To ensure you extract optimal value from our papers, Crown Van Gelder offers expert support on-site. Together, we work on making our paper deliver the best possible results on your equipment. In addition, we often tailor our paper to specific customer requirements.

Our segment experts understand the specifics of different production systems and end-products. In constant dialogue with customers and other stakeholders such as equipment manufacturers, we continue building our knowledge. This results in innovations that set new market standards.

For inkjet printing, we offer color management services, contributing to machine uptime and optimal ink consumption.
